

The Martock Community Group presented a cheque for £450 to Ash CEVC Primary School. This generous donation came from money collected as they toured local villages with their Santa sleigh at Christmas time. The money is going to be used to help fund the project of improvements to the village hall. The Parish Council, Village Hall Committee and the Church along with the school are working together to increase the facilities and use of the village hall. There have been donations made from the groups involved along with a substantial donation from the Amigo Charity. The improvements will mean that the school will be able to access the hall more easily from their site and the improvements inside will offer better facilities for local events. Many thanks go to everyone who has supported the project.
